Certificate

EN 124 - Gully Tops and Manhole Tops for Vehicular and Pedestrian Areas -

Number: K21246NR-01

This certificate, based on EN 124:2015, Gully Tops and Manhole Tops for Vehicular and Pedestrian Areas

– Part 1: Definitions, classification, general principles of design, performance requirements and test methods;
– Part 3: Gully tops and manhole covers in steel or aluminium alloys;

is issued by Kiwa GmbH.

Declaration by Kiwa:

Kiwa GmbH hereby declares that the gully elements in cast iron and / or concrete / cast iron, steel, aluminium alloys and reinforced concrete produced by the manufacturer meet the technical requirements specified in this product certificate. At the same time, all the requirements of EN124:1994 are fully complied with. This is indicated by the marking with the Kiwa brand name as illustrated in this product certificate.

As at the time that the certificate was issued, EN124-3 was not considered to be a harmonised European standard, in this case compliance with EN 124-3, Sections 1 to 9 is declared. The Annex ZA of EN 124-3 is explicitly not part of this certificate. This certificate will become invalid on publication of the Standard EN 124-3 in the European Official Journal.

CERTIFICATE

Annex to the Certificate
EN 124 - Gully Tops and Manhole Tops for Vehicular and Pedestrian Areas -

Number: K21246NR-01

Product Specification

Technical specification of the product

Gully tops and manhole covers for vehicular and pedestrian areas in:
- Steel or aluminium alloys and, where applicable, in combination with concrete

The products covered by this certificate are described in the manufacturer's specification and must be requested from the manufacturer by the user of this certificate in the event of doubt.

Marking

In each case, the gully tops shall be marked in accordance with EN 124-3, Section 9. In addition, the following mark, as a sign of the accredited certification body, shall be used as evidence of the continuous monitoring of the company's own production control:

KIWA

INSTRUCTIONS FOR THE USER

1. The products are intended for use as gully tops and manhole covers for vehicular and pedestrian areas. In doing so, observe the following instructions for use:
   - Manufacturer's processing guidelines

2. On delivery, check:
   - That the goods delivered are as agreed
   - That the mark and the type of marking are correct
   - That the products have no visible defects as a result of transport and the like

3. If you refuse a delivery due to one of the above points, please contact:

   - Steecorp Metal Sanayi ve Ticaret A.Ş

   and if necessary:

   - Kiwa GmbH
